CONTENTS

Review and General Articles

a. review articles

S. V. Konev, E. A. Chernitskii, S. L. Aksentsev, V. M. Mazhul, I. D. Volotovskii, G. D. Nisenbaum: Nondenaturational structural transitions of proteins and biological membranes 5

A. van Tol: Aspects of long-chain acyl-CoA metabolism 19

A. R. Means, S. Woo, S. E. Harris, B. W. O'Malley: Estrogen induction of ovalbumin mRNA: evidence for transcription control 33

b. general articles

J. Houstek and *Z. Drahota:* The regulation of glycerol 3-phosphate oxidase of rat brown-adipose tissue mitochondria by long-chain free fatty acids 45

M. Gutman and *N. Sĭlman:* The steady state activity of succinate dehydrogenase in the presence of opposing effectors. I. The effect of L-malate and $CoQH_2$ on the enzymic activity 51

M. Vicente, M. A. de Pedro, G. de Torrontegui, J. L. Cánovas: The uptake of glucose and gluconate by Pseudomonas putida 59

Arts in Science

Y. Iwanami: Son 67

Calm 68

Review and General Articles

a. review articles

P. Jollès: Structural aspects of the milk clotting process. Comparative features with the blood clotting process 73

E. Lederer, A. Adam, R. Ciorbaru, J. F. Petit, J. Wietzerbin: Cell walls of mycobacteria and related organisms chemistry and immunostimulant properties 87

L. C. Lutter and C. G. Kurland: Chemical determination of protein neighbourhoods in a cellular organelle 105

b. general articles

G. E. Matthyssens, E. Hurwitz, D. Givol and M. Sela: Binding of histamine- and other ligand-conjugated macromolecules to lymphocytes 119

J. J. Marshall: Inhibition of plant and bacterial β-amylases 127

B. Mondovi, L. Avigliano, G. Rotilio, A. Finazzi Agro, P. Gerosa, C. Giovagnoli: The effect of azide on the spectral and catalytic properties of ascorbate oxidase 131

Arts in Science

W. H. Blackwell jr.: Mus musculus 139

W. Dobryszycka: Cancer 140

Review and General Articles

a. review articles

S. K. Ruscetti, F. J. Gill and H. W. Kunz: The genetic control of the antibody response in inbred rats 145

E. Emile Baulieu: Some aspects of the mechanism of action of steroid hormones 157

b. general articles

M. Gutman and N. Silman: The steady state activity of succinate dehydrogenase in the presence of opposing effectors. II. Reductive activation of succinate dehydrogenase in presence of oxaloacetate 177

D. M. Stocco and A. M. Zimmerman: Adenine nucleotide metabolism in heat-synchronized tetrahymena 187

E. Salsas and J. Larner: Action pattern of muscle glycogen synthase 195

Arts in Science

J. H. Gregg: Mermaid's purse 203
